azrael's circle chapter 4

Absolutely loved this game and found the addition of checking out more territories than one big place refreshing for this series. Great murder mystery and puzzle solving in this game. I got stuck several times and didn't even get mad because it's just enough of a challenge to be enjoyable with out rage quitting. Some things are right under your nose and others are completely hidden easter eggs that only the most persistent will find XD The story is only getting better and I can't wait to see the conclusion of it all in Chapter 5! This is a pixel horror GEM.
