Enjoy Krantiveer starring Nana Patekar, Dimple Kapadia, Atul Agnihotri, Danny Denzongpa, Farida Jalal, .Q: How to convert an array of images of the same size into pairs of images of the same size. I would like to convert them to N pairs of images of different sizes such that the same image is repeated twice, one on the left side of the screen and the other on the right side. How can I do it efficiently? Here are an example and my solution: imgs = Import[""] sol = Module[{a = imgs, data, dim}, data = Transpose[{ SortBy[a, #[[1]], #[[2]], dim[[2]][[##]]*Dimensions[imgs][[1]]} & @@@ Partition[data, 2], {##, 2}] & [a, All]; Transpose[{ Pick[a, dim, 1], Pick[a, dim, 2]}] A: Kuba takes a different approach: (* Create a list of all possible sizes *) dims = Table[{2, 3, 4, 5}, {i, Range[1, 3]}]; (* Define a list of size pairs for each size *) dimPairs = Join[Tuples[4, All]], Map[f678ea9f9e
